Chemistry 262
Organic Chemistry II
Fall 2008

Class: 11:00 MWF, 05 Mitchell

Instructors: Paul Kropp, C147C Kenan Labs (919-962–6294; kropp@unc.edu)
Colin Hughes, B627 Kenan Labs (919-843-8915; cohughes@email.unc.edu)

Office hours: (Check Blackboard Announcements for current hours.)

Textbooks: Brown/Foote/Iverson, Organic Chemistry (Fourth Edition)
Iverson/Iverson, Student Study Guide and Solutions Manual
OWL Access card
Molecular Visions Organic Model Kit
Course–Pack

Web site: blackboard.unc.edu

Exams: Hour Exam I Monday, September 22
Hour Exam II Wednesday, October 22
Hour Exam III Wednesday, November 19
Final Exam Monday, December 8 (12:00, Comprehensive)

(In preparation for exams, it is recommended that you concentrate on class notes and assigned problems, using the textbook as a backup.)

Grading: Five percent of the course grade will be based on OWL assignments. The remainder will be determined by whichever option gives the higher total:

Option A: The three hour exams and the final exam count 25% each.

Option B: Drop the lowest hour exam; the final exam counts 50% and the other two hour exams count 25% each.

There will be no make–up exams. If you miss an hour exam, it is the one that will be dropped and your grade will be based on Option B.

Exams may be submitted for regrading by turning in at class with a note attached or may be brought by during office hours. No papers will be accepted for regrading after the next exam.
